

COMPANY Profile

Manufacturer • since 2009 • 22 countries

Pool / Spa / Water Treatment

One manufacturer for your whole pool business

OXYGON at a glance

Our team has been working in the field since 2001, designing and building steel-panel swimming pools. Today we manufacture in Thessaloniki, Greece, and supply professionals in 22 countries with everything a pool, a spa or a water treatment project needs.

We work with professionals: pool builders, installers, retailers, distributors, hotels and engineers. Our own team of civil engineers, mechanical engineers and technicians stands behind every order, from the first drawing to the spare part ten years later.

What we make and supply

Pool systems

Steel-panel pool kits and the full equipment range around them

Spa & wellness

Portable spas, swim spas, saunas and hydromassage equipment

Water treatment

Filtration, softening and reverse osmosis, from a home to an island

Three reasons professionals work with us

Production, complete kits, support

1

We manufacture.

Steel pool panels from our own plant in Thessaloniki, in five steel grades and any height from 0.30 m to 2.50 m. Custom panels leave the factory in 10 working days.

10-year structural warranty on the panels

2

We deliver the whole pool.

One kit, one shipment: panels, liner, ladder, pump room, filtration and lighting. And more than 1,400 catalogue items for pool, spa and water treatment from the same source.

204-page catalogue

3

We stay with you.

Engineers who answer the phone, an app with your prices and your orders, an AI assistant around the clock and manuals in your language.

ISO 9001 · 14001 · 45001 · 22301 · 46001

Made in Thessaloniki

Steel pool panels from our own plant

Our panels are **designed and produced in our own plant** and leave the factory as part of a complete pool kit. In-house production means quality control at every step, short delivery times and panels built to the specifications of each professional.

Five steel grades, one system

1

Z275

Steel with Z275 zinc coating. The proven standard for residential pools.

2

Z275 + aluminium oxide

Z275 with an additional electrostatic aluminium oxide coating for extra surface protection.

3

Magnelis®

Zinc, aluminium and magnesium alloy coating for enhanced corrosion resistance.

4

Stainless steel AISI 441

Ferritic stainless steel for demanding installations.

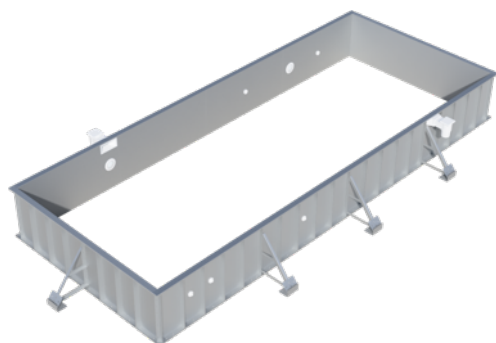

5

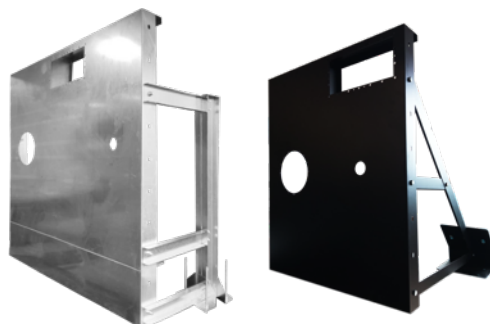

Stainless steel AISI 304 + PVC

Stainless steel with hot PVC lamination.

Quality you can document. Management systems certified to ISO 9001, 14001, 45001, 22301 and 46001 (EUROCERT, BQV). Every pool leaves with its static study, its drawings and its manuals.

Every pool is modelled in 3D before production and leaves the factory with its own drawings.

Left: Z275 panel. Right: panel with aluminium oxide coating.

Any shape. Any depth.

The pool your client wants, not the one a mould allows

0.30 to 2.50 m

Panel heights for every use, from paddling pool to diving depth

Free geometry

No restrictions on dimensions or shape, Roman ends and steps included

Sloped bottom

A pool option exclusive in Europe

Skimmer or overflow

Both systems available with our panels

Static study

Included with every pool, to international technical standards

10 working days

Production time for custom panels

10-year structural warranty on the panels
2-year warranty on equipment

The Complete Pool Kit

One shipment. One pool.

We do not ship loose panels. **We ship a pool.** Everything below arrives in a single delivery, matched and ready to install.

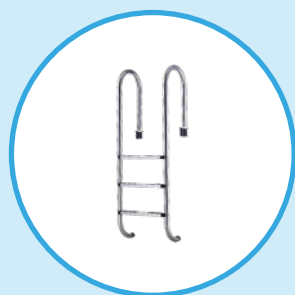

Steel panels
with braces and fixings

PVC liner
cut to the pool

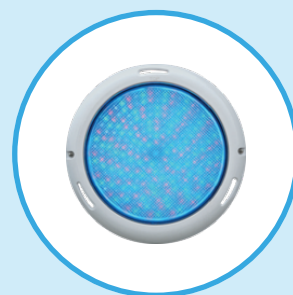

Pump room
pump, sand filter, multiport valve,
electrical board

Ladder
stainless steel

White fittings
skimmers, inlets, main drain,
vacuum point

LED lighting
underwater, with transformer

On site you provide: excavation, concrete slab, backfill, labour and liner welding.

Coping, covers, heating and cleaning robots are added from the catalogue to match each project.

One kit · one shipment · one supplier

Six steps from excavation to first swim

Real OXYGON projects, photographed on site

1

Excavation and base reinforcement

2

Concrete slab with the main drain pipe in place

3

Panel assembly and levelling with the braces

4

Plumbing, electrics and pressure test

5

Perimeter ring and backfill

6

Liner, coping and filling

...and the first swim.

One manual for the whole build. The OXYGON DIY Pool Manual guides the installer through every step, in 7 languages.

Full Range of Pool Products

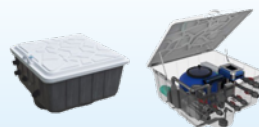

Pumps

16 models: Mira, inverter, seawater

Sand filters

10 models, Premier PE and Bobbin Wound

Pump rooms

Forest and Rock, every pump and filter combination

Lighting

LED and AISI 316 stainless steel lights

Fittings

Skimmers, inlets and drains, ABS and inox 316

Dosing systems

Automatic control for every water care need

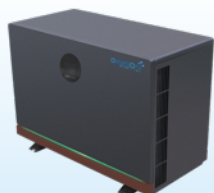

Salt chlorinators

EC and EC PRO up to 30 g/h, WiFi control

Robotic cleaners

Beatbot and OXYGON models

Heating

Heat pumps and exchangers

Liners & finishing

Liners, coping, deck and decoration

PVC valves & fittings

Everything for the pipework, PN10 and PN16

Chemicals

Complete range for pools and spas

And also covers, water features, counter-current units and dehumidifiers: more than 1,400 items in our 204-page catalogue.

Water Treatment Solutions

Clean, safe water since 2010

Since 2010, **OXYGON** has been a trusted provider of professional and domestic water treatment systems, working closely with industry specialists to develop tailored solutions for clean, safe water.

Filtration

Self-cleaning filters

Reverse osmosis

Softening & iron removal

Spare parts

Where it works

Homes & rentals

Better tap water,
protected appliances, lower
maintenance costs

Restaurants, cafés, hotels

Stable water quality for
kitchens, coffee machines and
guests

Settlements & islands

Reverse osmosis units sized for
entire communities

Spas & Wellness

Comfort, quality and performance

OXYGON is a recognized name in the spa and hot tub industry, offering a full range of portable spas, swim spas, saunas and accessories that stand out for their comfort, quality and performance.

With a team working in the field since 2001, we aim to be the first choice for spas in Greece and across Europe. Our products combine advanced features and ergonomic design at competitive prices, making luxury wellness more accessible than ever.

Portable spas

16 models for every space and budget

Swim spas

8 models to swim and relax in one unit

Saunas

And wellness equipment

Spa Assistant

Warranty and help in 15 languages

Project Solutions

Hotels · Resorts · Marinas · Public pools

One partner for every drop of water in your project. From the pool and the wellness area to the drinking water of an entire resort, OXYGON designs, manufactures, supplies and supports. Our engineers work with your design team from the first drawing, and our service programmes keep the water right long after hand-over.

From study to operation

Design support: sizing, static study and technical documentation

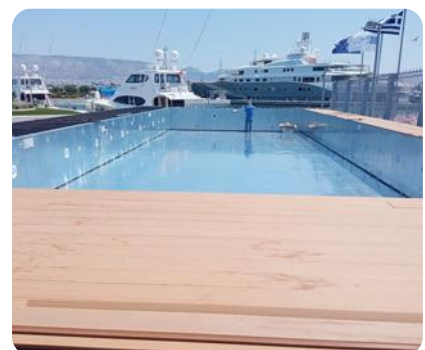

Manufacturing and supply of the complete project from one source

Installation or on-site guidance by our technicians

Maintenance programmes and water-quality monitoring

A pool where no excavation is possible: steel subframe, panels, liner and deck on a marina quay in Athens.

Working with OXYGON

Official Partner Network

Your pool business, supplied by one manufacturer. You bring your craftsmanship and your market. We bring the product, the tools and the support.

One supplier, one shipment. The pool kit and more than 1,400 catalogue items from a single source.

Prices made for the trade. Wholesale conditions for professionals, with your own price level in the app.

Technical support from engineers. Sizing, drawings and answers from people who build pools themselves.

Sales material in your language. Catalogues, product images and web pages ready to use.

After-sales you can rely on. Spare parts in stock, a 10-year structural warranty on the panels, 2-year warranty on equipment.
